

I thank New Jersey for their "Do Not Call" program. Finally, we can live in peace and not be interrupted 1/2 dozen times in the evening by telemarketers. This should not be taken away from the citizens of New Jersey. I work hard & expect some peace and quiet when I get home to help children with homework & eat a meal together. I believe this is my RIGHT. Telemarketers SHOULD NOT call my home if I don't want them to.
